

CnC / R+D Machinery GmbH

High precision Torque Motor driven Milling Heads :

- we developed
- we mediate

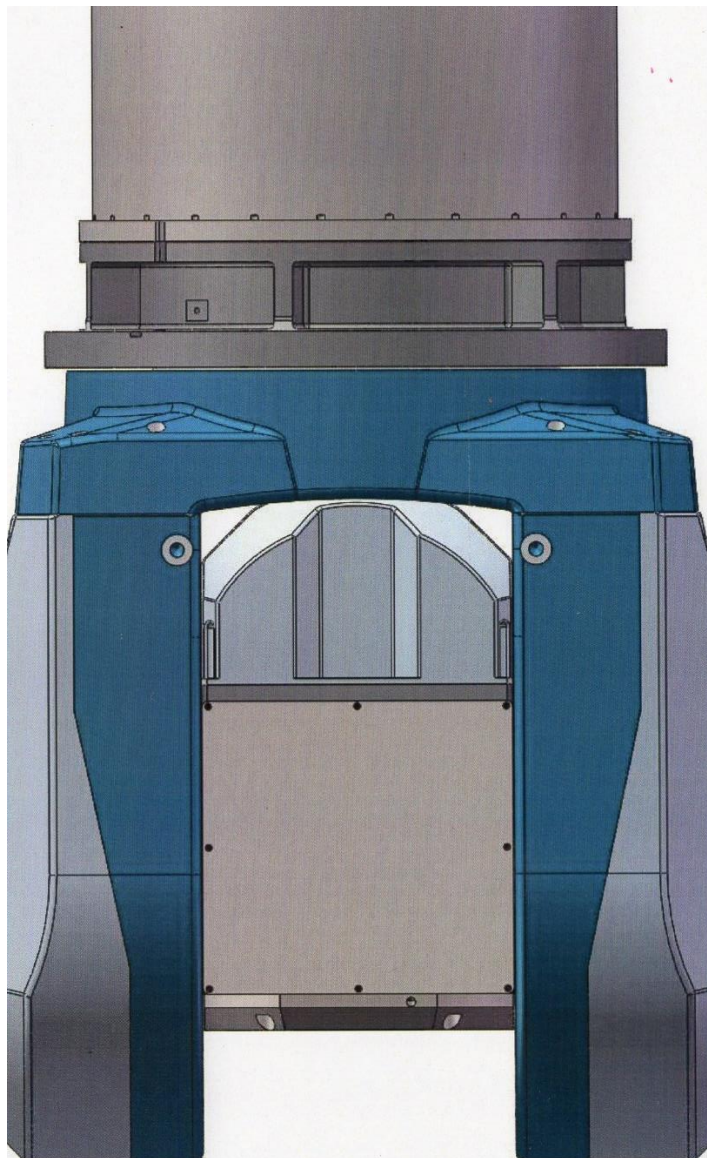

Cost reduction is not only now a day's a topic, it is an everlasting process, but not only from the purchasing of a company.

The highest cost reduction processes are coming from the developments. Every engineer who is developing need to be think about cost, quality and efficiency first.

All this performances are in our new developed Torque Motor driven Milling heads.
